Materials:
- Empty Plastic Bottle
- Old Sock
- Dish Soap
- Scissors
- Shallow Dish
- Food Coloring (optional)

Directions:
1. Cut off the bottom of the plastic bottle.
2. Put your sock around the bottom of the bottle (I pulled my sock up the entire way and rolled down the top so that it fit snugly around my bottle.) A rubber band can be used to hold the sock on the bottle if needed.

3. Add dish soap to your shallow dish with a little water and add food coloring.

4. Dip your bottle in your bubbles and begin blowing!
